

April 2016

Dear Friends,

Last Saturday we held a graduation ceremony for our 8th graders. They started attending their new school this past Monday! They are off to a good start. They are pleased with the school, and one girl said she had already made a new friend.

During graduation, each student received a diploma then moved from sitting on the ground with the rest of our students to sitting on benches at the front with our previous graduates. We cut a cake and shared 1" square pieces with all! It was a happy day.

one of our English teachers*

As I said in my last email, I have found sponsors for four of this year's students. I am still looking for six more sponsors! If you can help with this, we would really appreciate it. All of these students deserve a chance to complete high school! Their educational costs can be covered for \$24/month. You may choose a specific student to sponsor and can communicate with them by email if you like. To learn more about each student, please open the attached tri-fold brochure.

If you are not able to support a student, maybe you can think of someone else who would like to help in this way! You're welcome to pass the opportunity on!

Thanks for considering this!

love,
Connie
